Online Pre-Surgical Registration - One Medical Passport

You will receive an automated call from One Medical Passport after your surgery has been scheduled at Southwest Surgical Center. This call is a reminder to complete your online registration and medical history. You may also receive a reminder text on your phone. Please complete the online registration as soon as possible. This will allow our Pre-Surgical Assessment nurse to access the information you entered online. This information will assist the nurse in organizing and documenting your complete medical history to prepare for your surgery. If you have completed your registration prior to the automated call, you may disregard the call. Your registration only needs to be completed one time and will only need to be updated in the future if something in your medical history changes (surgeries, medications, conditions, etc). If you do not have Internet access, our Pre-Surgical Assessment nurse will contact you for a telephone interview.

**Please go to the following site to begin your Pre-Surgical Assessment:
www.southwestsurgical.org (NOT.com)**

Be sure to have the following information available before starting One Medical Passport:

- Your health insurance information
- The names, addresses, and phone numbers of your physicians
- A list of all medications you are taking, their dosage, and frequency
- A list of surgical procedures you have ever had and their approximate dates

One Medical Passport is a website that allows you to enter your information at any time from anywhere. You can also print out a copy of your medical history after you create it online and keep it with you or with your other health care documents, as well as have access to it online anytime you need it or want to update it.

Information Security:

One Medical Passport uses the highest grade of Internet security available: 128 bit encryption with SSL (secure socket layer) technology. Your information is stored on servers at a secure web hosting site and will only be released to your medical team at Southwest Surgical Center. Southwest Surgical Center will never release personal health information without written permission from the patient/guardian. Surgery and Patient Information

What to Expect

Pre-Admission Phone Call and Nurse Assessment

You will receive a phone call from a nurse before your scheduled procedure. We gather as much information as possible in advance to make the day of your procedure less stressful. The call also aids us in being fully prepared to care for you. If you would prefer to contact the nurse directly, please call 616-685-3983, Monday through Friday, 8 am to 4 pm.

Pre-Admission Testing

Please refer to any pre-admission instructions provided by your surgeon. You may need lab work or other testing prior to your admission. The anesthesiologist may also require you to obtain lab work or testing. If this is the case, our phone nurse will contact you to help with arrangements. Please complete all tests at least one week before your scheduled procedure so we will have all the information we need on the day of your arrival.

Pediatric and Adolescent Patients

Tours are available for children, adolescents and their parents prior to the day of the procedure. Please call to schedule an appointment with one of our nurses. The day of the procedure, a parent or legal guardian must accompany children/adolescents under 18 years of age to the center and remain onsite until the child is ready for discharge. Children are encouraged to bring a blanket or favorite toy to comfort them the day of their surgical procedure. Adolescents may bring a hand held game, books or other forms of entertainment. We have DVD players for movies for all ages.

Day of Surgery

Arrival Time

You will be asked to arrive 1-2 hours before your scheduled surgery. This provides us with the time necessary to prepare you for the procedure. Please try to arrive on time.

Eating/Drinking/Smoking

Do not eat or drink anything after midnight the day of your scheduled procedure, unless given direction by our phone nurse. This includes no water, food, gum, candy, or chewing tobacco. We encourage you to avoid smoking preoperatively to decrease risk of postoperative complications.

Medications

If you are taking medications, consult your surgeon or the phone nurse concerning your dosage and what to take the day of surgery.

Identification and Insurance Cards

Please bring your driver's license, or other photo identification, and insurance card(s) along with you, as you will need them during the admission process.

Personal Preparation

Shower or bathe the morning of your surgical procedure. Wear loose, comfortable clothing. Avoid wearing cosmetics – especially eye make-up. Please remove nail polish, and ALL jewelry (including body piercings).

Valuables

Do not bring valuables with you. Avoid bringing excess cash, jewelry, electronics or other items of value. Your personal belongings may be put in a locker or held by your family during your stay. Southwest Surgical Center is not responsible for lost items.

Your Driver

During your procedure, we will do our best to keep family and friends who accompanied you informed and comfortable. We have a relaxing lobby area and we encourage our guests to take a tour of our beautiful building and stop by the café, located on the first floor, for coffee or snacks.

While we do not have televisions in order to maintain a quiet, relaxed environment, we provide wireless Internet service. We encourage your family and friends to bring books, games, laptops or other activities to pass the time. To ensure the privacy of our patients, we limit each patient to two (2) visitors.

One visitor must remain on site throughout your stay.

Going Home

You will receive written instructions for your at-home care. The nurse will review instructions with you and answer any questions you might have. If you desire, we can make your prescriptions available at discharge using the Southwest Family Pharmacy. If you have questions after you go home, we are available until 5 pm. After that time, please contact your physician's office or go to an emergency room. You will receive a call from a nurse 24 to 72 hours after you go home to see how you are doing and answer any remaining questions you may have.

Estimate, Billing and Payment Expectations

Billing Team

As a courtesy to our patients, a member of our billing team will contact your insurance company in order to provide you with information concerning any deductibles, co-pays or co-insurances you may be responsible for "out-of-pocket".

We encourage you to contact your insurance company as well, to review your insurance benefits.

Your Cost Estimate

Based on the information given to us by your insurance company, you will be contacted by telephone or mail with the anticipated **facility** out-of-pocket costs. This figure includes co-pays, co-insurances and/or deductibles. Your insurance carrier will determine the final payment amount.

In the event that additional procedures, testing, or services are provided the day of your surgery, you may be responsible for additional charges after insurance processes the claim.

Payment Expectations

We require full payment of your expected out-of-pocket expenses in full at time of surgery. A member of the billing team will contact you by mail or phone prior to the date of surgery with your anticipated out-of-pocket obligation. We accept cash, check, debit, and credit cards (Visa, MasterCard, Discover, and American Express). In the event of a returned check a fee of \$25 will be added to your account. Financing is available through United Medical Credit. See online application on the center's website www.southwestsurgical.org, Financial and Information tab.

Billing

You may receive more than one bill for your surgical experience at the Southwest Surgical Center. The Surgical Center bill reflects the **facility** charges – charges for services provided by the non-physician members of our team. You may receive separate bills from the surgeon and the anesthesia provider. In addition, you may receive a bill from Mercy Health Saint Mary's if your physician orders lab work or x-rays. We apologize for any inconvenience or confusion this may create for you. Please feel free to contact the Surgical Center if you have questions about the bills that you receive.
